

2.6.1 The student teachers are assessed in various ways during their training period :

- **Internal evaluation** in M.Ed. internal evaluation is done for four semesters and in B.Ed. two terminal examinations. Assignments and project works are also the means of evaluating students' intellectual aptitude. Individual's skills and talents are tested, evaluated and refined by various group and individual competitions like folk dance, skit, patriotic song, drawing, Alpana & Rangoli making etc. Their physical skills and sportsmanship are evaluated during college sports and games. The students' performance in group activities, cultural programme, social work etc. show their characteristics
- **The institution uses various evaluation system** to check the progress of an individual. There are some tools and techniques through which evaluation is done - Mentoring Assessment, Practical, Field work, Paper presentations, projects, Preparation of lesson plan, teaching materials and ICT based teaching.
- The M.Ed. students are given continuous guidance in preparing questionnaire for data collection and analysis. B.Ed. student are asked to prepare questions for content test, achievement test and diagnostic test.
- **Digitalized evaluation** took place during COVID -19 the evaluation system shifted from offline to online mode teaching-learning is done through zoom, google meet, google classroom. M.Ed. students sent their questionnaire through google forms etc.
